

REMARKS

Claims 3-5, 7-10, 12, 14-20, 23-25, 28 and 29 pending in the application. Claims 3-5, 7-10, 12, 14-20, and 23-25 stand rejected in this Office Action. Claims 28 and 29 stand rejected. Claims 17 and 20 however have been objected to for certain informalities. The Examiner's rejections are addressed below.

CLAIM OBJECTIONS

Claims 17 and 20 are objected to because of the following informalities: -
- an —should be inserted before “outside” as in claim 5. Appropriate correction is required.

Claims 17 and 20 have been amended as suggested by the Examiner.

Claims 28 and 29 stand rejected under 35. U.S.C. 102(b) as being anticipated by U.S. Patent 1,443,986 to Forcier.

Claim 28 is an independent apparatus claim. Claim 29 depends from claim 28. Claim 28 has been amended to include the feature that the air flow space receives the conditioned air from the inner enclosed space and discharges such received air under pressure to the outside environment. Forcier does not show this feature. Accordingly, Applicant submits that claim 28 is not anticipated by Forcier. Additionally, there is no suggestion in Forcier relating to this feature. Applicant submits that claim 28 also is not obvious in view of Forcier. Claim 29 depends upon claim 28 and is neither anticipated nor obvious in view of Forcier for the reasons presented in reference to claim 28.

Accordingly, for the reasons given above, all of the claims are now allowable over the prior art of record.
